

crossroad25 4 Life - PDF:

BAND STORY

I am Nenad Jetic from Belgrade, Serbia, Crossroad25 is my pseudonym for rap, hip hop and trip hop. I have been making beats since 1998, when I made my first beat using Fruity Loops and RubberDuck. Starting from 1999 I was arranging my songs using Acid and Sound Forge. Through all those years I had my first own studio in my basement, where I learned Cubase SX and collaborated with demo and pro artists from Belgrade. Couple of my beats was released (as Shonsi Ras) on 2 solo albums by some members of Belgrade Syndycate, one of the top rap groups in Serbia. Now I'm making music in all kind of programs including Reason and Pro Tools. I'm also using devices like a Roland MC 808, Nordrack 2X, Alezis Micron and Blofeld Synthisizer when I make music without samples. My first professional music card have been M-Audio FireWire 410, and most of my music I made using that device. Today I'm using Digidesign 002rack to conect all of my music equipment. I'm seeking for cooperation with some artists from US for my own projects. I also want to connect with some guys from Europe (France, Germany, UK etc.) because I have made some European stile of rap music. If you are interested for some cooperation with me you can contact me on my e-mail, also you can contact me on my myspace profile.
